FAA Denver ARTCC

Effective: 12/01/2016 1300 (UTC)
Letter to Airmen: LTA-ZDV-13

Subject: Montrose, Colorado Clearance Delivery Phone Line

Cancellation: 03/20/2017 0000 (UTC)

Starting on December 16, 2016, Denver Center will be utilizing a Clearance Delivery line via recorded telephone for pilots departing the Montrose Regional Airport (MTJ), Montrose, Colorado. This clearance delivery method will be used periodically throughout the ski season on peak ski country traffic days. The intent is to reduce frequency congestion during these high volume traffic periods.

The NOTAM'd times of use will be 1700z-2100z on the days the clearance delivery line will be used. Due to expected high volume, pilots should call at least **30 minutes prior** to departure time via phone at **303-651-4808** to receive their departure clearance. Check NOTAM's frequently for current information.

Kevin W. Stark
Air Traffic Manager, FAA Denver ARTCC
