

NO PLANE NO GAIN

“ General aviation and community airports play a critical role in the lives of our citizens, as well as in the operation of our businesses and farms ”

- GOV. JOHN KASICH

NO PLANE NO GAIN

BUSINESS AVIATION HELPS

**OHIO**

REACH NEW HEIGHTS

## BUSINESS AVIATION KEEPS OHIO WORKING

There's a lot to get done in Ohio. Business aviation helps you do it faster and more efficiently so your organization can compete on the global stage.

The business aviation community consists of companies of all sizes that rely on many different types of general aviation aircraft – from single-pilot airplanes, to turbine aircraft that fly internationally, to helicopters that survey rush-hour traffic – and the fixed-base operations and many other services that support flight operations at the nation's 5,000 public-use airports.

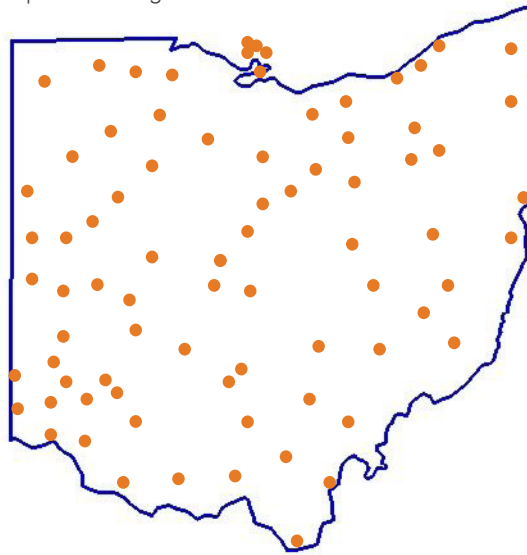

The vast majority of businesses in this community – **97 percent** – are small- to mid-size businesses and other entities including nonprofit organizations.

### Why use a business aircraft?

- S&P 500 Companies using business aviation outperform those that don't by 70%
- Business aircraft can reach about 5,000 airports, compared to about 500 for the airlines
- Companies using business aircraft out-perform non-users by 23% in revenue growth
- 98% of Fortune Magazine's Top 50 "World's Most Admired Companies" use business aviation

## NATIONAL REACH, LOCAL IMPACT

Ohio's aviation infrastructure makes it easy for companies in Buckeye State to utilize their aircraft. There are **150 general aviation airports** in Ohio, spread throughout the state.

These airports support over **17,000** jobs and contribute over **\$1.8 billion** to the Ohio economy.

Even better, they give communities outside of major metropolitan areas access to the global economy — enabling companies in Findlay and Zanesville to be just as competitive as those in Cleveland or Columbus.

## RESOURCES TO HELP YOU SUCCEED

Whether you're interested in using business aircraft or are already taking advantage of this powerful tool, here are some resources providing more information about the business aviation industry.

### Ohio Regional Business Aviation Association

Connect with Ohio business aircraft users, attend informational and networking events, and get involved in regional workforce, safety and advocacy initiatives. Learn more at [www.orbaa.org](http://www.orbaa.org)

### National Business Aviation Association (NBAA)

NBAA is the leading organization for companies that rely on general aviation aircraft to help make their businesses more efficient, productive and successful.

The association represents more than 11,000 companies and professionals, and provides more than 100 products and services, including the NBAA Business Aviation Convention & Exhibition (NBAA-BACE), the world's largest civil aviation trade show. Learn more at [www.nbaa.org](http://www.nbaa.org)

### NBAA Regional Representative

NBAA's regional experts can answer all of your questions about business aviation. Connect with your rep today at [www.nbaa.org/regional-reps](http://www.nbaa.org/regional-reps)

### About No Plane No Gain

No Plane No Gain, a joint undertaking of the National Business Aviation Association and General Aviation Manufacturers Association, is designed to educate the public on the importance of business aviation to our country and its communities, companies and citizens. In the United States, business aviation generates well over a million jobs, provides a lifeline to communities with little or no commercial airline service, helps thousands of businesses of all sizes to be more productive and efficient and provides emergency and humanitarian services to people in need.

### About NBAA

Founded in 1947 and based in Washington, DC, the National Business Aviation Association (NBAA) is the leading organization for companies that rely on general aviation aircraft to help make their businesses more efficient, productive and successful. Learn more about NBAA at [www.nbaa.org](http://www.nbaa.org).
