

# BUSINESS AVIATION

## Connecting The Future

### WHAT IS BUSINESS AVIATION?

The use of "general aviation" (meaning all flights not conducted by the military or scheduled airlines) for business purposes.

### WHO USES IT?

Companies ranging from air medical transport to manufacturing, 95% of which are small- to mid-size businesses.

### WHAT CAREERS ARE THERE?

Limitless options across a wide variety of disciplines, from coordinating flights to legal operations, flying planes to fixing them.

### HOW CAN I LEARN MORE?

Visit NBAA's website to learn more about joining this dynamic industry, including internships, scholarships and more.
