

Teterboro Airport Operations Bulletin # 2016-05

Date: February 22, 2016
To: Airport Tenants and Users
Subject: Temporary Airport Closure: Sign Installation in Runway Intersection

Teterboro Airport is working on a project to install a new Mandatory Hold Position sign on Runway 1-19. As part of this project, we will need to schedule a temporary airport closure to facilitate the work required in the intersection of Runway 1-19 and Runway 6-24.

We have a temporary 12-hour airport closure scheduled. This closure will necessitate closing the airport to fixed wing traffic, but helicopter operations will be permitted. Please keep in mind that this closure is weather dependent.

The 12-hour airport closure is as follows:

- 1. Saturday, 03/05/2016 (00:00 – 12:00L)**

DURING THIS CLOSURE, THE AIRPORT WILL BE CLOSED TO FIXED WING TRAFFIC, BUT HELICOPTER OPERATIONS WILL BE PERMITTED.

We appreciate your patience and thank you for bearing with us during this project.

BE SURE TO CHECK NOTAMS FOR SPECIFIC TIMES.
