# NBAA Leadership

# UAS Working Group Charter

*Unmanned Aircraft Systems (UAS) represent a significant opportunity for companies engaged in Business Aviation to generate new revenue opportunities for their organizations.*

*The charter of the Business Aviation Management Committee's UAS workgroup is to create reference materials and tools and educate members to help them understand and capitalize on this emerging market segment of commercial aviation.*

*The UAS Workgroup will provide guidance and support the facilitation of NBAA's UAS integration goal.*
