FLIGHT ATTENDANTS/FLIGHT TECHNICIANS CONFERENCE

**FLIGHT TECHNICIANS:
BUILD YOUR CASE TO ATTEND**

NEW! This year's conference will be co-located with the NBAA Maintenance Conference, giving you 2 conferences for the price of 1.

The best way to show your employer the value of your attendance is to focus on the specific, tangible benefits attending provides you and your company:

YOUR DIRECT BENEFIT

The Maintenance Conference exhibit hall will be filled with vendors and suppliers that provide a variety of flight technicians needs: ranging from adopting best practices, demonstrating catering leading to cost savings and a higher level of service, gaining international operations insights, and enhancing security – to list a handful.

The presenters are not the only experts at the conference; your peers are unique experts in exactly your field. Shared experiences can provide an operational edge while learning from others' mistakes.

You'll learn current best practices, including cabin safety, food safety, management techniques, and training ideas. Additionally, participating in this conference earns credit towards the NBAA Certified Aviation Manager (CAM) credential.

You will be able to network with vendors in a one-on-one environment, and those relationships can lead to direct cost-savings and higher satisfaction.

COMPANY'S BENEFIT

A Flight Technician stated, "This FAFT Conference touches on more of the key training events needed for a Flight Technician than any other conference and training event – it is broadly encompassing."

From other attendees, you will learn current industry trends, about new products and services, and operational tips to help your company work smarter, not harder.

Attendees actively share key learnings with their team members back home who were unable to participate in the conference so everyone in the flight operation gains from the knowledge learned at this educational conference.

One NBAA Flight Attendant Committee member reported her company saves between \$5,000 - \$6,000 annually because of show discounts received through supplier contacts that were initiated and cultivated at this conference.

16 EDUCATION SESSIONS AND 26 SESSIONS AT THE MAINTENANCE CONFERENCE

200+ ATTENDEES AND 900+ ATTENDEES AT THE MAINTENANCE CONFERENCE
