

INDOOR EXHIBIT HEIGHT RESTRICTION NOTICE

Note: The majority of the ceiling heights inside the LVCC North and Central Exhibit Halls are 35 ft. There are some areas located in the Central Hall (C1) where the ceiling drops to 25 ft. and other areas in the North Hall where the ceiling drops to 24 ft.

PAR CAN / LEKO SPOT LIGHTS

- Any lighting which is rigged from the stand hang points, must not fall outside the confines of the stand space, per by NBAA regulations. **Lights can not be installed over aisles.**

LIGHTING TRUSS

- Lighting truss must be within the confines of the stand and cannot exceed 30' in height (floor to top of truss). Any hanging signs or banners attached to the truss must conform to the maximum height limitations (See chart on following page)

STAND STRUCTURE / HANGING

- Stand structures and hanging signs must be within the confines of the stand and cannot exceed the maximum stand height limitations.

SECURITY RIGGING POINTS

- Raw exhibit space exhibitors may have a maximum of 4 stability points to secure their stand. Those using Y slings will be handled on a case-by-case basis depending on number and complexity of stand design. All rigging requests, including stability points (prior to ordering), and lighting truss, **must be included on stand drawings and approved prior to ordering from show management.**

Exhibitors with inline stands or peninsula stands are prohibited from attaching or hanging anything whatsoever to or from any part of the Las Vegas Convention Center.

Freeman is the exclusive provider of labor for assembly and installation of all hanging equipment, trusses and signs at the Las Vegas Convention Center. Due to safety regulations and liability issues, outside contractors will not be permitted to install any hanging structures.
