COURSE OFFERINGS

INSTRUCTIONS

These forms are designed around the five domains of the PDP learning objectives with the subtopics specified. In completing the forms, please show the estimated contact hours of instruction for each topic. If the course is offered in a nontraditional format with no instructional hours, show suggested study hours. If a topic is not covered in that course, leave it blank or insert an asterisk and explain in the Remarks Section. In continuing education courses, each PDP objective must be covered in its entirety in a single course and not split between courses.

Within the course material, identify **EACH** objective and sub-objective code in the left margin of the course material at the point where the objective/sub-objective is covered. For example, "L1-A for objective Leadership 1 and sub-objective A, should be annotated in the course material, i.e., books, pamphlets and papers.

Required Course Submission Information

- Course Review Form (Form A)
- Course Information Form (Form B)
- Course Syllabus, Outline or Schedule
- Any and all documents the attendee/student will have (powerpoint, workbook, worksheet, etc.)

For each course you are asking to be PDP-approved, it is recommended that the provider elaborate upon the methods and materials employed. The more detailed and clearly presented the syllabus, the easier it is for those reviewing to observe what the course covers, how it will be accomplished and how it correlates to business aviation.

Provide information on course goals and performance objectives and attach other pertinent information which would be useful in considering this proposal, such as program brochures, samples of video courses, course outlines, etc. Please submit proposals in an electronic format where possible. NBAA will keep this information secure as we review the documents.
